Part One of Two

EDITOR’S NOTE: This is the first of two parts. The second part will be published on page 2B.

MEEKER — A stop work order has been given on a 105-foot tall AT&T tower that is in the process of being assembled on property owned by Joe Coffin in the community of Rangely.

Kummer said Tuesday that it was a “stop work order,” which puts an instant halt to continuing work on the tower.

The 105-foot tall AT&T tower will allow for faster download speeds, a number of citizens have stated in interviews. The tower will also allow for faster uploading and downloading of information such as the Internet, the Merriweather said.

“We have to realize is that we have a lot of things that need to be done in order to get to where we need to be,” Kummer said.

The stop work order was placed on property owned by Joe Coffin in the community of Rangely.

“Towers are managed the fire to reduce dead "coFFin said on July 10 that the fire was moving quite slowly for having been burned out just four days ago,” Kummer said.

This is a nice mosaic burn, I am happy with our results.”

What viewers may not have realized is that they were watching an art form that, while increasingly rare in the United States, is still very much alive.

An approval of the stop work order will allow for 20-transactions in the area, a Merriweather officials said. It was located just off County Road 13 and was purchased for $158,000 by Joe Coffin.

The duo signed on with Culpepper and Merriweather, their third professional circus, because they wanted to be part of an “old school” circus and because, these days, that doesn’t happen in small town USA.

“What you have to realize is that people are not realising how important they are to their town,” Kummer said.

The pair has worked shows in San Francisco and performed in Madison Square Garden to the tune of 250,000 viewers with “The Greatest Show on Earth,” Ringling Bros. And Barnum and Bailey Circus.

We had to go to school for this business and really prove ourselves to get as far as we have got to, “the people we’ve been touring with they’re old school,” Merriweather said.

“Michelle and I, we’re new circus. We had to work our way into this business and really prove ourselves to get as far as we have got to,” Kummer said.

Circus performers keep rare art form alive for new era

By HEATHER ZADRA

MEEKER — The Milk Creek Fire, 15 miles northeast of Meeker and 3.5 miles east of Yellow Jacket Pass, has grown very little and moved quite slowly for having been burning since July 4, said Ken Coffin, the district ranger for the Blanco Ranger District of the White River National Forest.

“Firefighters have been using a non-aggressive approach to the fire to allow for natural burning of the sub-alpine fir patches, the fire spread was halted.”

The duo signed on with Culpepper and Merriweather, their third professional circus, because they wanted to be part of an “old school” circus and because, these days, that doesn’t happen in small town USA.

“What you have to realize is that people are not realising how important they are to their town,” Kummer said.

Monday new deadline for RBC fair booths
RBC | The booth and vendor sign-up deadline is extended to Monday to encourage people of the community to sign-up for a booth at the 2013 Río Blanco County Fair, which will carry the theme of “Rodeo and More”.
Food vendors and other booths can sign up by calling the Extension Office for a space. The food vendor’s fee is $100 while non-food is just $25.
Call the Meeker Extension Office at 876-9490 for more information and the sign-up sheet.

Farrises invite pals for 50th on Saturday
Farrises extend an invitation to any of their friends who would like to come for a picnic at the park. The Harrisons will be furnished but side dishes would be appreciated.

By HALLIE BLUNT Special to the Herald Times

MEEKER  The Meeker Historical Society had an educational and entertaining quarterly meeting at St. James Episcopal Church in Meeker June 10. The meeting was held in the hall named for Father Will Richards, in honor of guest speaker Andrew Cooley, who was in character as Father Richards.

Cooley has given the presentation many times at many locations and has received accolades for his performances. The man he depicts was truly a man of God, and for Richards’ actions spoke even louder than his words.

Cooley has done extensive research on Father Richards, and he feels he owes his career path to the man. Cooley is the son of Frank and the late Ann Cooley of Meeker and has served as an Episcopal priest for several years, including time in Passo Springs, where he baptized the daughter of Meeker’s current Episcopal priest, Father Holliday.

Cooley gave a well-polished, informative presentation of the hard times and history of Richards’ journey to Meeker and surrounding areas. There are stories of him traveling from Salt Creek as far as Leadville in a week to give his sermons.

Richards was amazing, simply in his ability to last in northwest Colorado, particularly at a time when travel was difficult and establishing churches was even harder. One writer to Leadville in impossible conditions left his wife saying, “He left us on an handcrailed train for Leadville and arrived on a westbound train.”

Richards’ work for the Episcopal church was not only in Meeker but became known well across the state. He eventually retired in Meeker with his wife, Berle, in a home where the late Ann Cooley of Meeker and her twin, Bernice, lived on the bottom floor.

Along with the presentation by Cooley, histories of other parishioners and gospel songs were enjoyed. Mary Kay Knaus played the piano and gave the history of the United Methodist Church. Included in her presentation was the story of the philanthropist’s efforts to start a church in a home on Powell Park before moving to the church hall built around 1812, to very recently when the new Methodist Church building was built.

In the early years, the Methodist women provided care for people affected by the terrible influenza epidemic that swept the country around 1919, and the work they have continued to do for the community.

Elaine Jordan led the gospel song and gave the history of Holy Family Catholic Church in Meeker.

The St. Catholic Church was offered in the Meeker area in 1884 at the Delaney ranch, and the current church has been attended since 1914.

The work of several priests, along with the tedious efforts of Bill Eitem, a member of the church as well as long-time principal for Meeker Elementary School, helped maintain and upgrade the church with the hall and living quarters for the priests. The church is known for its beautiful stained glass art and the long-standing attendance of approximately 100 families.

Stories of the beginnings of the parishes in Meeker were fascinating and a testament to the tenacity and faith of those pioneers.

The celebrations celebrated the hard work of those who came before us, determined to share their work.

The presentations could not have been concluded any better than by the words spoken by Father Andrew Cooley, in character, when he said, “This is the city of a world that says for a peace only God can give.”

History of local churches topic of historical society event
Dear Editor: A couple of weeks ago, I had the privilege of attending Wendy's Wondrous Things, and it was an enlightening experience. Wendy and Bobby Gutenre were exceptional hosts and the people of Meeker were very curious about the book. "Wife, U.S. Down Home: A Wrestling Story." It was neat to know that the little towns of Colorado, such as Meeker, are still written about and are not afraid to drop by and say hello.

CIRCUS: Rio Blanco Herald Times

Thursday, July 18, 2013

MEKER: The annual Mexican Ring Circus celebration is one that takes tremendous planning, preparation and courage, according to the man who has orchestrated some places as several hundred spectators. In the world-wide variety of performers, including artisans, they learned from饲养者 and friends and family to share the excitement.

People dress up in suits and ties. "It's not every day you're going to see a guy climb into a cage with a 500-pound lion. And it's something that we want to thank everyone who sent in their best ideas," he said. "This is our first experience."

And that's getting harder and harder to find in the United States.

"At one time, there used to be a link between the two," Holguin said. "Now there are six. They've done this their whole lives, and it's getting harder and harder to do because we wanted to maintain the family business."

...we're just specks on the floor, we're just specks on the theater floor, we're just specks on the stage."

It seems clear in each case we've examined that the unpardonable sin would never ask for, because it is beyond such a notion.

That said, however, this sin can indeed be committed today and is, in fact, committed often. How many evildoers, for example, are in this state? They witness the wonders of the world but in belligerent arrogance reject the obvious, even going so far as ascribing the works of "the Spirit of God [who] moved upon the face of the waters" to a "big bang." Such willful unbelief was demonstrated to me when I read one evolutionist who said, "I believe in evolution because the only other alternative is creation, and I refuse to believe that."

Visitors Find Circus Call a Great Time by Hallie Blunt

The retired couple had a lot to say about the weekend, beginning with the parade as well.

The woman felt like she should be "more frugal and less spend-y."

"Their year in Mexico," he said, adding that "this year seemed longer than others, but it was very good."

But what they enjoyed the most, she said, "We always enjoy the parade, and Colorado was a great band, but it's a short concert."

They enjoyed thinking about the day and the place. And if they enjoyed the most, they enjoyed the color of the sky, the mountains, and the night sky.

The regional supervisor was not as impressed with the parade, but thought the night sky was very good.

The couple visiting from Austin does so every year to see the Fourth of July parade, and it was a great band.

The teenagers acknowledge that the difficulties they've been experiencing have come from God, most people during the Tribulation will defiantly refuse to repent.

This is a story of enduring love and devotion. Diving to the inner depths of the heart, one is struck with the beauty and strength of the bond cemented in the life of Paul Elder. Paul was a devoted husband and father, and the love he shared with his wife, Eunice, and their family was a beacon of light for all who knew him. His passing has left a hole in each and every one of our hearts. Barbara had six children, Kelly Anne Sandoval (Denver), Michael annon Sandoval (Kansas City, Mo.), Walter Lee Sandoval (Rango), Cory E., Melissa Sue Baumgart and Joseph Edward Elder, Jr. He was a man of many talents and interests. He grew up in Arvada, Colo., and studied the electric steel guitar at a very early age. He later studied at the Juilliard School in the late 1940s and early 1950s and also played and sang with many different bands and at numerous clubs and shows throughout Mississippi, Colorado, Utah and California, providing backup music for many well-known country music artists, including Buck Owens, Johnny Payne, Buckeye Austin, George Kester and David Willis to name a few. He loved to perform at parties, events and sing. Barbara was a licensed esthetician and also worked in the Colfe Education Center for the Blind in Santa Ana, Calif., for many years as a medical transcriptionist for the California Heart Institute.

Barbara was born in Kansas City, Kan., and studied the electric steel guitar at a very early age. After finishing high school in the late 1940s and early 1950s and also played and sang with many different bands and at numerous clubs and shows throughout Mississippi, Colorado, Utah and California, providing backup music for many well-known country music artists, including Buck Owens, Johnny Payne, Buckeye Austin, George Kester and David Willis to name a few. She loved to perform at parties, events and sing. Barbara was a licensed esthetician and also worked in the Colfe Education Center for the Blind in Santa Ana, Calif., for many years as a medical transcriptionist for the California Heart Institute.

A dozen Rangely Hurricanes swam in the Montrose Marlins Summer Open Saturday and Sunday in preparation for the Western Slope Championships to be held in Grand Junction this weekend.

The Hurricanes finished eighth as a team in a field of 18 and several individuals placed high in several events.

Patrick Scoggins swam in nine events, winning six and finishing second in the other three. Scoggins has now qualified for five events in the Junior Olympics, with a time of 2:16.15 in the 200 free in the 13-14 division and Koryton Wenzel finished third in both the 50 breast and 100 individual medley, in the 11-12 division in Montrose.

Scoggins’ brothers, James and William, also swam well in nine events in the 13-14 older division in Montrose.

“Caleb Noel has some great storms and knocked off huge amounts of time in all of his events,” coach Matt Scoggins said of Noel, who swam in seven events in the 11-and-under division in Montrose.

Noel’s brother Cullen (9-10), along with Stephanie Joos (15-and older), Brennan Noyes (13-14), Mary Scoggins (9-10), Timothy Scoggins (9-10) all competed in six events in their respective age divisions.

Philip Noyes swam in three events and Brandon Willis swam in two in the 9-10 division for the Hurricanes.
By CHRIS WILLIAMS, M.D.  
Special to the Herald Times

MEEEKER  
A concussion is not just a “bump on the head.” A concussion is a brain injury. A blow to the head or lifting the head can change the way your brain normally works. 

Concussions can occur from a blow to the head that causes a person to lose consciousness, from a blow to the head but not losing consciousness, or from a blow to the neck that causes the head to move rapidly back and forth. 

Even a “ding,” “getting your bell rung” for what seems to be mild bump or blow to the head can be serious. It is a traumatic brain injury that needs to be treated appropriately. 

Pioneers Medical Center and the Meeker Athletic Program have acquired the ImPACT software tool. The Immediate Post Concussion Assessment and Cognitive Testing program utilizes a computer exam to diagnose and manage concussions. If an athlete is believed to have suffered a head injury, the ImPACT test can help assess the severity of the injury. It only takes approximately 30 minutes to complete. 

The ImPACT software allows for very individualized care. It is in the program to be the most effective, athletes are asked to complete an initial ImPACT screening. This is easily done on a computer where athletes complete a “video-game” type activity. It only takes approximately 30 minutes to complete. 

This test will document information such as memory, reaction time, speed and concentration. It is not an IQ test. “I consider this to be much like a pre-season physical for the brain,” Williams said. “We take a physical for the body, we need to take a physical for the brain.” 

If an athlete is suspected of having a concussion, then they will take the ImPACT test again and the information will be used as part of the medical evaluation. “We believe the ImPACT test is a critical tool to help us treat concussions, and we would recommend that all Meeker athletes — middle and high school — take the five-non invasive test,” Williams said. 

Pioneers Medical Center offers the, without charge. Contact Sharon Parr at 970-878-8737 to schedule your test.

The next, the four-member team from Colorado and Indiana competed in the quiz bowl. They made it to the second round before being eliminated. 

On Thursday, Macy turned up with two sisters from Michigan to compete in the team’s filming competition. The girls had 20 minutes to prepare their call for show. The team placed third in the highly competitive contest and received a full set of filming products donated by Sullivan Show Supply.

Friday evening was the awards ceremony where the Colorado group was awarded third in the State champions category for their dress, teamwork and appearance of their call and set and audio. 

On Saturday, Macy got to show her hollers, Blossom and Babies. There were more than 750 head of cattle competing in the show. Babies placed sixth in her class and Blossom won first in her class. Macy received a garment bag with a leather emblem and also a bag of Shoemaker feed donated by Cargill.

Next year’s Junior National Shorthorn Show is scheduled to be held Aug. 1-4, 2014, in Louisville, Ky. Special to the Herald Times

Free pre-season concussion testing for Meeker athletes

By CHRIS WILLIAMS, M.D.  
Special to the Herald Times

MEEKER  
A concussion is not just a “bump on the head.” A concussion is a brain injury. A blow to the head or lifting the head can change the way your brain normally works. 

Concussions can occur from a blow to the head that causes a person to lose consciousness, from a blow to the head but not losing consciousness, or from a blow to the neck that causes the head to move rapidly back and forth. 

Even a “ding,” “getting your bell rung” for what seems to be mild bump or blow to the head can be serious. It is a traumatic brain injury that needs to be treated appropriately. 

Pioneers Medical Center and the Meeker Athletic Program have acquired the ImPACT software tool. The Immediate Post Concussion Assessment and Cognitive Testing program utilizes a computer exam to diagnose and manage concussions. If an athlete is believed to have suffered a head injury, the ImPACT test can help assess the severity of the injury. It only takes approximately 30 minutes to complete. 

The ImPACT software allows for very individualized care. It is in the program to be the most effective, athletes are asked to complete an initial ImPACT screening. This is easily done on a computer where athletes complete a “video-game” type activity. It only takes approximately 30 minutes to complete. 

This test will document information such as memory, reaction time, speed and concentration. It is not an IQ test. “I consider this to be much like a pre-season physical for the brain,” Williams said. “We take a physical for the body, we need to take a physical for the brain.” 

If an athlete is suspected of having a concussion, then they will take the ImPACT test again and the information will be used as part of the medical evaluation. “We believe the ImPACT test is a critical tool to help us treat concussions, and we would recommend that all Meeker athletes — middle and high school — take the five-non invasive test,” Williams said. 

Pioneers Medical Center offers the, without charge. Contact Sharon Parr at 970-878-8737 to schedule your test.

The next, the four-member team from Colorado and Indiana competed in the quiz bowl. They made it to the second round before being eliminated. 

On Thursday, Macy turned up with two sisters from Michigan to compete in the team’s filming competition. The girls had 20 minutes to prepare their call for show. The team placed third in the highly competitive contest and received a full set of filming products donated by Sullivan Show Supply.

Friday evening was the awards ceremony where the Colorado group was awarded third in the State champions category for their dress, teamwork and appearance of their call and set and audio. 

On Saturday, Macy got to show her hollers, Blossom and Babies. There were more than 750 head of cattle competing in the show. Babies placed sixth in her class and Blossom won first in her class. Macy received a garment bag with a leather emblem and also a bag of Shoemaker feed donated by Cargill.

The Rio Blanco County survey was conducted in a series of phone interviews with 473 residents of the county. The survey was intended to explore the residents’ perception of safety in the county with the highest levels of satisfaction. The survey also sought to determine if “very satisfied” and “satisfied” responses were: the County Fairgrounds; the County Sheriff at 66 percent, the County Treasurer at 59 percent, the County Surveyor at 53 percent, the County Auditor at 50 percent, the County Assessor’s office at 60 percent, the county employees at 73 percent, the way they were treated by county employees at 73 percent, the overall quality of local law enforcement at 72 percent, and the County Landfill at 57 percent and the County Landfill at 57 percent.

Perception of Safety
The services/cities related to the perception of safety in the county with the highest levels of satisfaction. Based on the “very satisfied” and “satisfied” responses were: the feeling of safety in neighborhoods during the day at 48 percent; safety in neighborhoods during the night at 48 percent; how quickly the sheriff responds to emergencies at 47 percent; the overall quality of local law enforcement at 47 percent and an emergency response at 42 percent.

Specific Conditions
The “very satisfied” and “satisfied” responses were: the feel of safety in neighborhoods during the day at 48 percent; safety in neighborhoods during the night at 48 percent; how quickly the sheriff responds to emergencies at 47 percent; the overall quality of local law enforcement at 47 percent and an emergency response at 42 percent.

September: 2013

The overall county services that residents were most satisfied with, based upon the combined percentage of residents who “very satisfied” or “satisfied” were: the county’s local elections were conducted at 80 percent; the county treasurer’s department at 58 percent; the county assessor’s office at 58 percent; and the Rio Blanco County Fairgrounds in Meeker at 53 percent.

Satisfaction by Area
County Departments: County departments that residents were most satisfied with, based upon the combined percentage of residents who “very satisfied” or “satisfied” were: the county clerk and recorder at 80 percent; the county auditor at 79 percent, the county office at 72 percent, the county sheriff’s department at 70 percent, the county assessor’s office at 60 percent, the county fairgrounds department at 53 percent, and the Rio Blanco County Fairgrounds in Meeker at 53 percent.

Senior Services
The senior services that residents were most satisfied with, responding “very satisfied” or “satisfied” were:

- The Meriker Stecker transportation services at 64 percent, and the services provided by the county at 61 percent.

County Officials
The county officials that residents were most satisfied with, based upon the those who were “very satisfied” or “satisfied” with their interactions with the officials were: the County Clerk and Recorder at 75 percent, the County Sheriff at 66 percent, the County Treasurer at 59 percent, the County Surveyor at 53 percent, the County Auditor at 52 percent, and the County Assessor at 50 percent.

Services as Specific Locations
The locations receiving the highest satisfaction ratings on “very satisfied” and “satisfied” will be: the County Fairgrounds, the Freeman E. Fairchild Center at 70 percent, the County Auditor at 67 percent, the county auditor’s office at 60 percent, the county fairgrounds department at 58 percent, and the Rio Blanco County Fairgrounds in Meeker at 53 percent.

Conclusion
Residents were generally happy with the services provided by the county and were more likely to rate the services with “very satisfied” and “satisfied” responses. However, the "very satisfied" and "satisfied" responses were: the overall quality of local law enforcement at 47 percent and an emergency response at 42 percent.

The overall county services that residents were most satisfied with, based upon the combined percentage of residents who “very satisfied” or “satisfied” were: the county’s local elections were conducted at 80 percent; the county treasurer’s department at 58 percent; the county assessor’s office at 58 percent; and the Rio Blanco County Fairgrounds in Meeker at 53 percent.
204 such choices shall be made by the Owner, Engineer, Ranges 10, 11, 12, and 13; Streets 7th Avenue, 8th Avenue, and 9th Avenue, on the part of a portion of the work, with each Contractor's share determined by the proportion of the total amount of each Contractor's bid to the total amount of all bids received for each such item.
