NO TUCK

Thu, Jan 28, 11:25 AM

Can I call you later?

Hey bud need to visit with you about public health

Thu, Jan 28, 1:59 PM

iMessage

Wed, Jan 27, 2:25 PM

Hey man hope you made it home safe. Did you email the PH statute to the hospitals? Kyle text me and asked.

Tue, Feb 9, 3:38 PM

How do we help this end positively

I dont know I think we can. I will try and come up with something lol

More communication

Can I call you later?

Yep just going to update you on the conversation with Julie. No rush

Julie said that would be fantastic and is happy about that. However, she still wants to come to the workshop tomorrow to give a little history and I told her that was not necessary that we would support writing the letter but she still wants to keep the workshop. Just a heads up

Perfect

I sent an email to Lori to get the board of health meeting for the 26th. Just FYI. Have a good day and drive safe.

**Cc:** Gary Moyer <gary.moyer@rbc.us>  
**Subject:** Vaccination & Testing

Ms. Sellers and Mr. Wren,

The BoCC has asked I reach out to you again communicating the Board's displeasure at the way the County has allowed the relationship with each of your entities to deteriorate and to reaffirm the county's commitment to get things set right.

The other reason for this communication is to inquire about the COVID testing and vaccination functions. Although we understand you cannot assist in taking over the Public Health functions on an interim basis, would you be able to take over the testing and vaccination functions? I believe we have a stable of volunteers that we could provide to assist with this function.

Finally, I wish to confirm that if the BoCC goes public with its concerns about the Public Health Department we could state in public that one of the reasons for the Commissioner's displeasure with county staff is the poor relationship with the hospitals.

Thank you again for your time and attention and if ever you have concerns about the county please feel free to reach out to me.

Todd

Hi Alice,

All outbreaks are required to be reported to CDPHE and go on the public facing website, this is not a HIPAA violation. Your attorney can reach out to the CDPHE attorney if they have more questions or concerns: Ann Hause ([ann.hause@state.co.us](mailto:ann.hause@state.co.us)).

Brianna

On Wed, Dec 2, 2020 at 1:32 PM Alice Harvey <alice.harvey@rbc.us> wrote:

I am being told by my county attorney that this may involve a hipaa violation and I am not allowed to publicly release this information. Is there any truth to that?

On Wed, Nov 25, 2020 at 9:49 AM Merritt - CDPHE, Brianna <brianna.merritt@state.co.us> wrote:

Hi Alice,

It is up to your discretion whether you wish to publicly publish the outbreaks on your website. Some counties have been, others do PR only for OBs they have investigated, and some leave a reference to the CDPHE website public facing outbreaks. It may open some transparency, but also not completely necessary. I know this wasn't super helpful, but here are some other county's websites.

I do think what you have prioritizing is important over the website since they are on the CDPHE website.

<https://www.summitcountyco.gov/1408/Outbreaks>  
<https://www.covid19routtcounty.com/> --> <https://rpubs.com/RouttCOPublicHealth/COVID19dashboard>  
<https://health.mesacounty.us/covid19/datadashboard/>

On Wed, Nov 25, 2020 at 9:36 AM Alice Harvey <alice.harvey@rbc.us> wrote:

Good morning,

I have a quick question about public reporting:

We are getting requests from the public to report our local/current outbreaks. Is this ok to do, required, or up to our discretion? Our priority of course is working with the businesses/organizations themselves and then reporting to you, but is this something you think we should consider? Many are self advertising to the public, but some are not leaving the public questioning if we are not being transparent.

We'd appreciate your thoughts!  
Thank you,
